Turning On Card Alerts Helps Keep You Safe And Informed

Are you using the power of your credit or debit card to help protect yourself against fraud?

By setting up text alerts or notifications you'll know when your card is being used, how much is being spent, and even when it's time to pay your bill.

Alerts let you
keep track of how
your debit, credit
cards are used.

In a world where crooks look for ways to access our accounts, alerts give us an early warning that something might be wrong or needs immediate attention.

These text or email alerts can be controlled and customized via Virtual Branch Home Banking and our Mobile Banking App.

You can choose to get them via text or email.

These powerful safety features can:

- Alert you to card use - things like transaction amount, online or phone purchases, fuel purchases, and ATM withdrawals.
- Show your account balances, provide reminders about when a payment is due or when it is received, and display available credit.

Alerts can be sent via text or email, or both! Click on the My Cards tutorial below to learn how to turn on card alerts, spending insights, set up travel plans, and more. Then, log into Virtual Branch Home Banking and our Mobile Banking App to control and customize your alerts.

Now is the time to turn on the power of card alerts.
